One portfolio for connected education management.

Focused digital solutions for administration, fees, campus visitors, assessments, admissions and alumni records.

ABOUT GURUKUL SOFTWARE

Gurukul Software provides a complete digital ecosystem—ranging from core school ERP, fee, and visitor management to specialized web development and IT services.

We empower educational institutions to streamline daily administration, automate workflows, and enhance operational efficiency through unified, modern technology.

OUR APPROACH

CENTRALIZE	Bring important information together.
SIMPLIFY	Reduce repetitive manual administration.
CONNECT	Support coordination across users.
TRACK	Maintain records and operational visibility.

Built around everyday education management - not unnecessary complexity.

CORE SOFTWARE SOLUTIONS

Clear product highlights with short, practical descriptions.
